#### ADDITIONAL DETAILS

NFT commissions are paid in Tether (USDT) directly to your active wallet.

To earn Unilevel bonuses, you must have at least one active contribution in your wallet.

NFT payouts are always processed for the first and last 5 positions at a time.

NFTs receive global BTC 24H distributions based on the current USDT rate.

Unilevel commissions are automatically processed by smart contracts.

#### UNDERSTAND THE NFT WBTC SYSTEM

NFT WBTC: It is an innovative system for creating automatic liquidity. When acquiring an NFT WBTC, 50% of the purchase value will be automatically allocated to the creation of a WBTC/BTC24H liquidity pool.

#### PRICE AND DISTRIBUTION:

Each unit of NFT WBTC costs \$250.

The distribution of earnings will be as follows:

20% in a commission-based level system distributed across 40 levels.

30% for NFTs of different categories (Bronze, Silver, and Gold).

50% for the creation of the WBTC/BTC24H liquidity pool.

### LIQUIDITY AND EARNINGS

NFTs will be sold 100% in USDT.

Earnings from NFTs will be 100% in WBTC.

Users who acquire NFTs will be paid in a queue system, with payments for five ahead and five behind.
